FREQUENTLY ASKED QUESTIONS

Screen shows: ***Insert SIM card! Only emergency call 112***
⇨ Check the direction of the SIM card

Call failed: Entered the area code? Check the selected telephone number and area code again for accuracy.

The mobile telephone display is blank/black:
Telephone is in energy saving mode (press any key).
Or it is switched off ⇨ press for 2 seconds to turn it on.

The mobile phone is not responding:
Remove battery, re-insert and switch on the device.
If still no response, please contact the Service Centre.

The charging process will not start:
It may take a few minutes. If no response after 10 minutes, please contact the Service Center.

EMPORIA EMERGENCY BUTTON

You can store up to 5 emergency numbers (family, neighbours, friends, emergency services).

- In case of an emergency press the emergency button on the reverse side of the mobile telephone either for 3 seconds or 3 times within 3 seconds. The emergency key will still work when the key lock is enabled.
  By pressing the emergency button the emergency sequence is started. Up to 5 numbers will be called in a predetermined order until someone answers the emergency call.
  This process is repeated 3 times.
- If no emergency number is defined, your prepaid-card is out of charge or you are outside of the home network of your network operator, the international emergency number 112 will be called.
- During the emergency sequence a warning tone is played back, to inform the people around you about the emergency.

PleaseNote: By answering the emergency call, the called person has to dial 0 3 times, during the first minute of the call. (Dialing the 3 x 0 by the receiver of the call ensures that your emergency call is not forwarded to an answering machine or voicemail).

Saving emergency numbers:
Go to ***Phone book*** ⇨ ***Emergency numbers***
